

Cadence — 2026 Internship LinkedIn Posting Copy

OPTION A: Founder Voice (Post from Rip's personal profile)

We're hiring interns at Cadence.

Not for coffee runs. Not for busywork.

We're building a SaaS platform that's about to change how the music industry thinks about catalog data — royalties, rights, valuations, all of it. And we need hungry, creative, sharp people who want to be part of something from the ground floor.

We're looking for:

- Software Engineering Intern
- Product / UX Design Intern
- Marketing & Content Intern
- Business Development & Sales Intern

12 weeks. Hybrid in Atlanta or LA (remote considered). College credit available where applicable. No degree required — we care about what you can do.

You'll work directly with the founding team. You'll ship real work. And you'll leave with a portfolio, a recommendation, and a network that spans from Grammy-winning studios to enterprise tech.

If you're the kind of person who's ever wondered who wrote your favorite song — come build the platform that answers that question.

OPTION B: Company Brand Voice (Post from Cadence company page)

Cadence is looking for its first class of interns.

We're a catalog intelligence platform built for the modern music industry — helping rights holders manage catalogs, track royalties, and value their assets.

This summer, we're bringing on 4 interns across engineering, design, marketing, and business development to help us build toward beta launch.

What you'll get:

- Real ownership on production work
- Direct mentorship from founding team
- Access to a network spanning Grammy-winning studios and enterprise tech
- Portfolio-ready deliverables and letter of recommendation
- College credit available where applicable

12 weeks | Hybrid (ATL or LA) | Open to students, grads, and career changers
